

Course Syllabus: CS-104A Introduction to .NET Programming Spring 2009

Instructor: Jim Pham
Email: jpham@ohlone.edu
Webpage: <http://www2.ohlone.edu/people/jpham/>
Section: CS-104A-01 (041264) (hybrid; 50% online);
CS-104A-02 (041265) (100% online)

Course Description:

This is an introductory course using **the .NET Framework** for design and development. Students will learn how to program in Object-Oriented Programming using classes and inheritance, and to access databases using ADO.NET. Students will develop a small-scale business application that involves an SQL Server database.

Prerequisites:

There is no prerequisite for this course. However, it is recommended that students have a basic understanding of high-level languages like C/C++, Java, etc.

Textbook:

[Programming in Visual C# 2008](#)

By: Julia Case Bradley and Anita C. Millspough

ISBN: 0073517216

Course Schedule:

Week	Date	Topic
1	1/31	Introduction to .NET Programming (on ground)
2	2/7	User Interface Design (on ground)
3	2/14	Holiday/Presidents' Day (no class)
4	2/21	Variables, Constants, and Calculations (online)
5	2/28	Decisions and Conditions (on ground)
6	3/7	Menus, Common Dialog Boxes, and Methods (online)
7	3/14	Multiform Projects (on ground)
8	3/21	Lists, Loops, and Printing – Midterm Chapter 1 to Chapter 6 (online)
9	3/29	Spring Break (no class)
10	4/4	Arrays (on ground)
11	4/11	Programming with Web Forms (online)
12	4/18	Accessing Database Files (on ground)
13	4/25	Saving Data in Files/Group Project (online)
14	5/2	OOP/Group Project (on ground)
15	5/9	Graphics, Animations, Sound, and Drag-and-Drop/Group Project (on ground)
16	5/16	Final Exam (on ground)

Course Schedule Details:

This syllabus outlines the topics intended to be covered in specific classes during the semester. Actual topics may be modified depending on the class progress. All details are kept current and up to date on my web page. Refer to the course schedule web page regularly:

<http://www2.ohlone.edu/people/jpham/cs104a/cs104aspring2009syllabus.html>

Email:

If you send me email, please put **course number – name – topic** into the email **Subject** field.

For example: CS104A – Name – Issue

Cell Phone Etiquette:

You may have cell phones in class, but they must be put into silent ring mode. If you need to respond to a call, please leave the classroom.

Programming Assignments:

There will be programming assignments of one- or two-week duration, depending on the scope and difficulty of the assignment. There is a group project that will span the second half of the semester.

Assignments are due at the beginning of the class on the due date.

Late assignments, up to one week late, will receive 50% credit. No credit for assignments turned in more than a week late. If, for business travel, you are unable to attend class, notify me prior to the due date to request an extension.

Final Project:

The final project is a demonstration of your ability to create an advanced and complete .NET application using the skills learned in the class. The development of this project begins in the middle of the term and continues concurrently as you learn new material.

Policy on Student Work:

The programming assignments are to be done individually, unless a group project is specified. You are encouraged to talk to fellow students about concepts and methods, but you may not copy someone else's work. I adhere to the **Ohlone College Policy on Academic Integrity**.

Quizzes:

There will be quizzes on the reading assignments and on the prior week's material. There are no make-up quizzes; you will be able to drop the lowest two scores.

Exams:

There will be one midterm exam and one final exam. The final exam consists of your final project and its critique.

Grading:

Programming Assignments:	30%
Class and WebCT Participation	10%
Midterms:	20%
Group Project	20%
Final Exam	20%

Grading Scale:

90-100 = A; 80-89 = B; 65-79 = C; 55-64 = D; <55 = F
