

Instructor: Jim Pham
Email: jpham@ohlone.edu
Webpage: <http://www2.ohlone.edu/people/jpham/>

Course Description:

This course is designed to provide students with the knowledge and skills that are required to develop Extensible Markup Language (XML) Web Services. The course focuses on using Microsoft Visual Studio .NET and Microsoft ASP.NET to enable students to build, deploy, locate, and consume Web services.

Prerequisites:

There is no prerequisite for this course, since many students may have had prior programming experience with Visual Basic, .NET, and/or C#.

Textbook:

Due to the nature of our class this semester, you can use the current book for CS104A and CS104B. For CS104D and CS122, you can use any .NET book you are comfortable with.

Course Schedule:

Week	Date	Class	Topic
1	2/2	Ohlone	.NET Framework, Course Overview
2	2/9	Online	.NET Framework Windows Applications
3	2/16		Holiday/Presidents' Day (no class)
4	2/23	Ohlone	.NET Framework Web Applications
5	3/1	Online	XML Web Services
6	3/8	Ohlone	Web Services Standard
7	3/15	Online	SOAP
8	3/22	Ohlone	WSDL
9	3/29		Spring Break (no class)
10	4/5	Online	Discovering Web Services/UDDI
11	4/12	Ohlone	Creating Web Service Client
12	4/19	Online	Creating Web Services / ASP.NET
13	4/26	Ohlone	Group Project
14	5/3	Online	Group Project
15	5/10	Online	Group Project
16	5/17	Ohlone	Group Project Presentations
17	5/19	Online	Final Exam

Course Schedule Details:

This syllabus outlines the topics intended to be covered in specific classes during the semester. Actual topics may be modified depending on the class progress. All details are kept current and up to date on my web page. Refer to the course schedule web page regularly:

<http://www2.ohlone.edu/people/jpham/cs104d/cs104dsp2008syl.html>

Email:

If you send me email, please put the **course number – name – topic** into the email **Subject** field. For example: CS104D – Name – Issue

Cell Phone Etiquette:

You may have cell phones in class, but they must be put into silent ring mode. If you need to respond to a call, please leave the classroom.

Programming Assignments:

There will be programming assignments of one- or two-week duration, depending on the scope and difficulty of the assignment. There is a group project that will span the second half of the semester.

Assignments are due at the beginning of the class on the due date.

Late assignments, up to one week late, will receive 50% credit. No credit for assignments turned in more than a week late. If, for business travel, you are unable to attend class, notify me prior to the due date to request an extension.

Final Project:

The final project is a demonstration of your ability to create an advanced and complete .NET application using the skills learned in the class. The development of this project begins in the middle of the term and continues concurrently as you learn new material.

Policy on Student Work:

The programming assignments are to be done individually, unless a group project is specified. You are encouraged to talk to fellow students about concepts and methods, but you may not copy someone else's work. I adhere to the **Ohlone College Policy on Academic Integrity**.

Quizzes:

There will be quizzes on the reading assignments and on the prior week's material. There are no make-up quizzes; you may drop the two lowest scores.

Exams:

There will be one midterm exam and one final exam. The final exam consists of your final project and a final project critique.

Grading:

Programming Assignments:	30%
Class Participation	20%
Midterms:	10%
Group Project	30
Final Exam	10%

Grading Scale:

90-100 = A; 80-89 = B; 65-79 = C; 55-64 =D; <55 = F
