

Course Syllabus: CS-104A Introduction to Visual Basic .NET Fall 2008

Instructor: Jim Pham
Email: jpham@ohlone.edu
Webpage: <http://www2.ohlone.edu/people/jpham/>

Course Description:

This is an introductory course using **Visual Basic .NET** for design and development. Students will learn how to program in Object-Oriented Programming using classes and inheritance, and to access databases using ADO.NET. The students will develop a medium-sized business application involving an SQL Server database.

Prerequisites:

There is no prerequisite for this course. However, it is recommended that students either have taken CS-104A, the Introduction to Visual Basic .NET, or have equivalent knowledge of object-oriented programming and the basics of .NET.

Textbook:

Due to the nature of our class this semester, you can use the current book for CS104A and CS104B. For CS104D and CS122, you can use any .NET book you are comfortable with.

Course Schedule:

Week	Date	Topic
1	9/8	.NET Framework, Course Overview
2	9/18	.NET Framework Windows Applications
3	9/22	Holiday/Presidents' Day (no class)
4	9/29	.NET Framework Web Applications
5	10/6	XML Web Services
6	10/13	Web Services Standard
7	10/20	SOAP
8	10/27	WSDL
9	11/3	Spring Break (no class)
10	11/10	Discovering Web Services/UDDI
11	11/17	Creating Web Service Client
12	11/24	Creating Web Services / ASP.NET
13	12/1	Group Project
14	12/8	Group Project
15	12/15	Group Project
16	12/22	Final Exam

Course Schedule Details:

This syllabus outlines the topics intended to be covered in specific classes during the semester. Actual topics may be modified depending on the class progress. All details are kept current and up to date on my web page. Refer to the course schedule web page regularly:

<http://www2.ohlone.edu/people/jpham/cs104a/cs104afall2008syl.html>

Email:

If you send me email, please put **course number – name – topic** into the email **Subject** field.

For example: CS104A – Name – Issue

Cell Phone Etiquette:

You may have cell phones in class, but they must be put into silent ring mode. If you need to respond to a call, please leave the classroom.

Programming Assignments:

There will be programming assignments of one- or two-week duration, depending on the scope and difficulty of the assignment. There is a group project that will span the second half of the semester.

Assignments are due at the beginning of the class on the due date.

Late assignments, up to one week late, will receive 50% credit. No credit for assignments turned in more than a week late. If, for business travel, you are unable to attend class, notify me prior to the due date to request an extension.

Final Project:

The final project is a demonstration of your ability to create an advanced and complete .NET application using the skills learned in the class. The development of this project begins mid-term and continues concurrently as you learn new material.

Policy on Student Work:

The programming assignments are to be done individually, unless a group project is specified. You are encouraged to talk to fellow students about concepts and methods, but you may not copy someone else's work. I adhere to the **Ohlone College Policy on Academic Integrity**.

Quizzes:

There will be quizzes on the reading assignments and on the prior week's material. There are no make-up quizzes; you may drop the two lowest scores.

Exams:

There will be one midterm exam and one final exam. The final exam consists of your final project and a final project critique.

Grading:

Programming Assignments:	25%
Class and WebCT Participation	10%
Midterms:	20%
Group Project	20%
Final Exam	25%

Grading Scale:

90-100 = A; 80-89 = B; 65-79 = C; 55-64 = D; <55 = F
