

Instructor: Dr. Jim D. Pham
 Email: jpham@ohlone.edu
 Webpage: <http://www2.ohlone.edu/people/jpham/>
 Section: CS-178-02 (051602) (100% online)

Course Description:

This introductory class will teach students how to use XML to create dynamic web pages and why XML is gaining popularity more rapidly than any other web technology. Students will create their own XML documents, XML document type definitions and schemas to describe their structure and content. Students will also discover how to use Cascading Style Sheets (CSS) to render XML documents in an ordinary web browser.

Course Materials: Blackboard is the primary method of communication for the course. Learning lessons, assignments, midterm, and final exam will be posted on <http://bb-ohlone.blackboard.com/>.

Prerequisites:

CS 156 advisory: CS 176 and CS 175.

Textbook

New Perspectives on XML, 2nd Edition, Comprehensive
 By: Patrick Carey
 Course Technology, ISBN-10: 1418860646

Course Schedule Details:

This syllabus outlines the topics intended to be covered in specific classes during the semester. Actual topics may be modified depending on the class progress.

Course Schedule:

Week	Date	Topic
1	1/23	Creating an XML Document
2	1/30	Working with Namespaces
4	2/6	Validating an XML Document
5	2/13	Working with Schemas
6	2/20	Holiday: President's Day (Ohlone College closed, no class)
7	2/27	Working with Cascading Style Sheets
8	3/5	Cascading Style Sheets and Working with XSLT and XPath
9	3/12	Midterm (online) - Working with XSLT and XPath (cont.)
10	3/19	Spring Break 3/19 - 3/25
11	3/26	Creating a Computational Style Sheet
12	4/2	Creating a Computational Style Sheet (cont.)
13	4/9	Creating Element Groups
14	4/16	Using XML as a Data Source
15	4/23	Working with the Document Object Model
16	4/30	Working with the Document Object Model (cont.)
17	5/7	Special topics
18	5/14	Final Exam (online)

Student Learning Outcomes

The students will:

1. Design and write source material in XML document validation specifications, and document formatting specifications.
2. Demonstrate an understanding of validation, including being able to validate XML source against specifications using software tools.
3. Design and develop XML documents and transform them using XSL formatting information and XSL formatting into HTML and XHTML pages.
4. Create applications in Web programming using SAX and DOM.
5. Explore XML applications in E-commerce using UDDI and WebXML.
6. Explore other relevant issues, such as e-commerce standards, metadata standards, search technologies, and agent technologies.

Email:

If you send me an email, please put the **course number – name – topic** into the email **Subject** field.

For example: CS78 – Name – Issue

Cell Phone Etiquette:

You may have cell phones in class, but they must be put into silent ring mode. If you need to respond to a call, please leave the classroom.

Programming Assignments:

There will be programming assignments of one- or two-week duration, depending on the scope and difficulty of the assignment. There is a group project that will span the second half of the semester.

Assignments are due at the beginning of the class on the due date.

Late assignments, up to one week late, will receive 50% credit. No credit for assignments turned in more than a week late. If, for business travel, you are unable to attend class, notify me prior to the due date to request an extension.

Term Project:

A term project will be assigned during the course. A student may work on this project individually or in a group of two.

Policy on Student Work:

The programming assignments are to be done individually, unless a group project is specified. You are encouraged to talk to fellow students about concepts and methods, but you may not copy someone else's work. I adhere to the **Ohlone College Policy on Academic Integrity**.

Exams:

There will be one midterm exam and one final exam. The final exam consists of your final project and a final project critique.

Grading:

10 Lab Assignments (or 5 Labs and a term project)	40%	Class and BB Participation	10%
Midterm:	25%		
Final Exam	25%		

Grading Scale:

90-100 = A; 80-89 = B; 65-79 = C; 55-64 = D; <55 = F
