

Instructor: Dr. Jim D. Pham
Email: jpham@ohlone.edu
Office Hrs: By Appointment
Web Page: <http://www2.ohlone.edu/people/jpham/>
Section: CS-102-04 (077904)

Course Description:

This course is an introduction to computer programming. Its primary objective is to teach problem solving using the C++ programming language. Emphasis will be placed on structured procedural programming with an introduction to object-oriented programming. This course is designed primarily for computer science and related transfer majors.

Lab: Lab is required for this course. Please be ready to discuss the techniques demonstrated in the online lecture and explained in the textbook via Blackboard.

Prerequisites: MATH-152 or MATH-153

Textbook: Starting Out with C++: From Control Structures through Objects, Brief Edition, 9/E Gaddis
ISBN-13: 9780134498379

Canvas: Slide presentations, labs, and worksheets will be accessed through Ohlone's Canvas Course Management System. You access the online resource at this URL: <https://ohlone.instructure.com>.

Discussion Board: Your participation on the Discussion Board (on Canvas) will be an important aspect of the class. You will be required to post, and respond to at least two posts from a classmate, on a weekly basis.

Student Learning Outcomes

After completing this course, students will be able to:

Documentation, Analysis, Testing, Design: Flowchart, Pseudocode, Decision Table, Object-Oriented Programming (OOP).

Canvas Web Conference:

I will be conducting several live lectures and labs using Canvas Conferences. Instructions for accessing CCC Confer will be posted on the Canvas site. You may remotely attend these live lectures or review the archives at a later date.

Email:

If you send me email, please put **course number – name – topic** into the email **Subject** field.

For example: CS102 – Name – Issue

Cell Phone Etiquette:

You may have cell phones in class, but they must be put into silent ring mode. If you need to respond to a call, please leave the classroom.

Lab Assignments:

There will be programming assignments of one or two week duration, depending on the scope and difficulty of the assignment.

Lab Assignments are due at the beginning of the class on the due date.

Late assignments, up to one week, will be given 50% credit. No credit for assignments turned in more than a week late. If for business travel reasons you are unable to be in class, notify me **prior** to the due date for an extension.

Policy on Student Work:

The programming assignments are to be done individually, unless a group project is specified. You are encouraged to talk to fellow students about concepts and methods, but you may not copy someone else's work. I adhere to the **Ohlone College Policy on Academic Integrity**.

Quizzes:

There will be quizzes on the reading assignments and on the prior week's material. There are no makeups for quizzes.

Grading:**Grading Scale:**

Labs:	30%	A = 90-100
Participation:	10%	B = 80-89
Chapter Quizzes:	10%	C = 65-79
Midterm Exam:	20%	D = 55-64
Final Exam:	30%	F = <55

Course Schedule: The following is a tentative schedule. The instructor reserves the right to make any schedule changes deemed necessary.

Week	Date	Activity
1	08/27/19	Chapter 1. Introduction to Computers and Programming
2	08/29/19	Chapter 2. Introduction to C++
3	09/02/19	Holiday: Labor Day (Ohlone College closed)
4	09/09/19	Chapter 3. Expressions and Interactivity
5	09/16/19	Chapter 4. Making Decisions
6	09/23/19	Chapter 5. Loops and Files
7	09/30/19	Chapter 6. Functions
8	10/07/19	Chapter 7. Arrays
9	10/14/19	Chapter 8. Searching and Sorting Arrays
10	10/21/19	Midterm
11	10/28/19	Chapter 9. Pointers
12	11/04/19	Chapter 10: Characters, C-Strings, and More About the string Class
13	11/11/19	Chapter 11. Structured Data
14	11/18/19	Chapter 13: Introduction to Classes
15	11/25/19	Chapter 14: More about Classes Functions
16	11/28/19 – 12/01/19	Holiday: Thanksgiving (Ohlone College closed)
17	12/01/19	Chapter 15: Inheritance, Polymorphism, and Virtual Functions
18	12/07/19	Final Exam
