

Instructor: Dr. Jim D. Pham
Email: jpham@ohlone.edu
Office Hrs: By Appointment
Web Page: <http://www2.ohlone.edu/people/jpham/>
Section: CS-102-04 (081236)

Course Description:

This course is an introduction to computer programming. Its primary objective is to teach problem solving using the C++ programming language. Emphasis will be placed on structured procedural programming with an introduction to object-oriented programming. This course is designed primarily for computer science and related transfer majors.

Lab: Lab is required for this course. Please be ready to discuss the techniques demonstrated in the online lecture and explained in the textbook via Canvas.

Prerequisites: MATH-152 or MATH-153

Textbook: C++ Programming: Program Design Including Data Structures, 8th Edition
Author: D.S. Malik
ISBN-13: 9781337117562

Canvas: Slide presentations, labs, and worksheets will be accessed through Ohlone's Canvas Course Management System. You access the online resource at this URL: <https://ohlone.instructure.com>.

Discussion Board: Your participation on the Discussion Board (on Canvas) will be an important aspect of the class. You will be required to post and respond to at least two posts per chapter.

Student Learning Outcomes

After completing this course, students will be able to:

Documentation, Analysis, Testing, Design: Flowchart, Pseudocode, Decision Table, Object-Oriented Programming (OOP).

Canvas Web Conference:

I will be conducting live lectures and labs on Canvas ConferZoom. Instructions for accessing ConferZoom will be posted on Canvas. You may remotely attend these live lectures or review the archives later.

Email:

If you send me email, please put **course number – name – topic** into the email **Subject** field.
For example: CS102 – Name – Issue

Cell Phone Etiquette:

You may have cell phones in class, but they must be put into silent ring mode. If you need to respond to a call, please leave the classroom.

Lab Assignments:

There will be programming assignments of one- or two-week duration, depending on the scope and difficulty of the assignment.

Lab Assignments are due at the beginning of the class on the due date.

Late assignments, up to one week, will be given 50% credit. No credit for assignments turned in more than a week late. If for business travel reasons you are unable to be in class, notify me **prior** to the due date for an extension.

Policy on Student Work:

The programming assignments are to be done individually, unless a group project is specified. You are encouraged to talk to fellow students about concepts and methods, but you may not copy someone else's work. I adhere to the **Ohlone College Policy on Academic Integrity**.

Quizzes:

There will be quizzes on the reading assignments and on the prior week's material. There are no makeups for quizzes.

Grading:**Grading Scale:**

Labs:	30%	A = 90-100
Participation:	10%	B = 80-89
Chapter Quizzes:	10%	C = 65-79
Midterm Exam:	20%	D = 55-64
Final Exam:	30%	F = <55

Course Schedule: The following is a tentative schedule. The instructor reserves the right to make any schedule changes deemed necessary.

Week	Date	Activity
1	06/15/2020 06/18/2020	- Chapter 1. Introduction to Computers and Programming - Chapter 2. Basic Elements of C++
2	06/22/2020 06/25/2020	- Chapter 2. Basic Elements of C++ (continuing) - Chapter 3. Input/output
3	06/29/2020 07/02/2020	Chapter 4. Control Structures I (Selection)
4	07/06/2020 07/09/2020	- Chapter 5. Control Structures II (Repetition) Midterm (Chapter 1 – Chapter 5)
5	07/13/2020 07/16/2020	- Chapter 6. User Defined Functions - Chapter 7. User Defined Simple Data Types, Namespaces, and the String Type
6	07/20/2020 07/23/2020	Chapter 8. Searching and Sorting Arrays and Strings
7	07/27/2020 07/30/2020	- Chapter 9. Records - Chapter 10. Classes
8	08/03/2020 08/06/2020	- More on classes and functions Final Exam
